

Hayfever Blaster Nasal Spray

Product Code: NHS2012D1298E

Description

Nasal spray suspension

Active Ingredient

Fluticasone Propionate 0.05%

Other Ingredients

Dextrose (anhydrous), Microcrystalline cellulose, Carboxymethylcellulose sodium, Phenylethyl alcohol, Benzalkonium chloride, Polysorbate 80, Purified water, Dilute hydrochloric acid.

Symptoms

Hayfever Blaster Nasal Spray is indicated for the prophylaxis and treatment of allergic rhinitis including hayfever and that caused by other airborne allergens such as house dust mite and animal dander. Hayfever Blaster Nasal Spray provides symptomatic relief of sneezing, itchy and runny nose, itchy and watery eyes, nasal congestion and associated sinus discomfort.

Contraindications

Hypersensitivity to fluticasone propionate or any other of the ingredients.

Dosage

Adults aged 18 years and over: Two sprays into each nostril once a day, preferably in the morning. In some cases two sprays into each nostril twice daily may be required. Once symptoms are under control a maintenance dose of one spray per nostril once a day may be used. If symptoms recur the dosage may be increased accordingly. The minimum dose at which effective control of symptoms is maintained should be used.

The maximum daily dose should not exceed four sprays into each nostril.

Should not be used by children and adolescents under 18 years of age.
Maximum benefit may require 3-4 days of continuous treatment in some people

Prophylaxis of allergic rhinitis requires treatment before contact with allergen. For full therapeutic benefit regular usage is recommended.
